

GENIUS

Olympiad

**Open the door
to fun, discovery and
international competition!**

START your own GO Club

GENIUS Olympiad provides GO Clubs with \$100 start-up funding. Club members prepare and submit environment-focused projects in one or more categories.

- ⇒ **Art, creative writing, music, short film**
- ⇒ **Science, robotics, engineering**
- ⇒ **Business**

Clubs can launch service projects about an environmental issue important to them and to their community.

GENIUS Olympiad Student Clubs

GENIUS
Olympiad

What do GO clubs need?

- ➔ At least 5 youth members in grades 8-12
- ➔ An adult advisor who will be responsible for the youth
- ➔ A place to gather at least biweekly for meetings and project planning
- ➔ Online project updates
- ➔ Internet resources such as GeniusOlympiad.org and ScienceBuddies.org

What can GO clubs do?

- ➔ Explore environmental issues in the neighborhood ... and the world
- ➔ Follow member interests via individual or two-person team environmental projects
- ➔ Make a difference in the community with a service project
- ➔ Inspire young children *and adults* with members' own caring and action
- ➔ Submit projects for consideration by GENIUS Olympiad (deadlines on GO website)

Note to teachers, parents and community volunteers: Contact GENIUS Olympiad about becoming the adult advisor of a new GO Club. GO will provide organizing materials and \$100 start-up funding; students will receive GO t-shirts when they submit their projects. Advisors don't need to be scientists, artists or entrepreneurs. Advisors simply want kids to dream big and care about the world around them.
